The Face customization menu is displayed on a black background. It features three lip style options in the top row, with the first one highlighted by a yellow rounded rectangle. Below this is a row of five color swatches for skin or eye color: pink, light red, red, purple, and dark red. The purple swatch is currently selected, indicated by a white border. A large horizontal purple slider is positioned below the swatches, with a white circle indicating the current selection level. At the bottom center of the menu is a yellow circle containing a white upward-pointing arrow. On the right side of the menu, there is a vertical column of four yellow circular icons: a curved line, an eye, a curved arrow, and a lip.

Color selection interface for the character's face. It features two horizontal color pickers. The top one is a rainbow gradient with a white circle marker positioned in the purple region. The bottom one is a purple-to-magenta gradient with a white circle marker positioned in the magenta region. To the right of these pickers is a vertical column of five yellow circular icons: a curved line, an eye, a curved arrow, and a pair of lips. At the bottom center of the panel is a yellow circular icon with a downward-pointing arrow.
